Notes: Grilles can be fabricated to most any specification. Here are "typical" specifications:
- Face Overall Size = Order Size + 2-1/2"
- Screw Hole Size: #8
- Actual Border calculated based on Order Size, Face Overall Size, and Pattern selected
- Opposed-blade volume damper can be tack welded directly to face. Some minor blemishes may be visible. Damper operator may be difficult to access (behind a fret).

All dimensions are in inches.
