## Model **AL / TL** ALUMINUM LINEAR BAR GRILLES CONFIGURATION

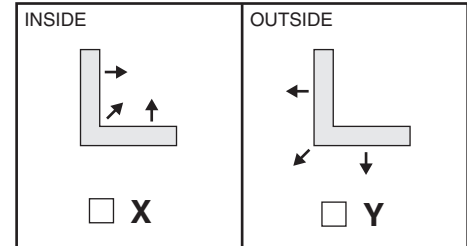

### GRILLES & REGISTERS

#### PRODUCT FEATURES

- Refer to specific Airline model documentation for dimensional and cross-sectional details
- Individual linear bar grille sections are available to 96" lengths
- Order lengths greater than 96" will utilize multiple grille sections shipped with alignment strips to maintain a linear appearance.
- Grilles are manufactured as Full, Center, and/or End sections based on the order length, and may consist of one or more sections.
- Miter Corners are not available with dampers or double deflection
- Right Hand (RH) and Left Hand (LH) sections apply when angle of deflection is other than 0°
- Order size is NOMINAL size.
- Refer to Table A to convert Overall Dimensions to Nominal Size for Full Sections

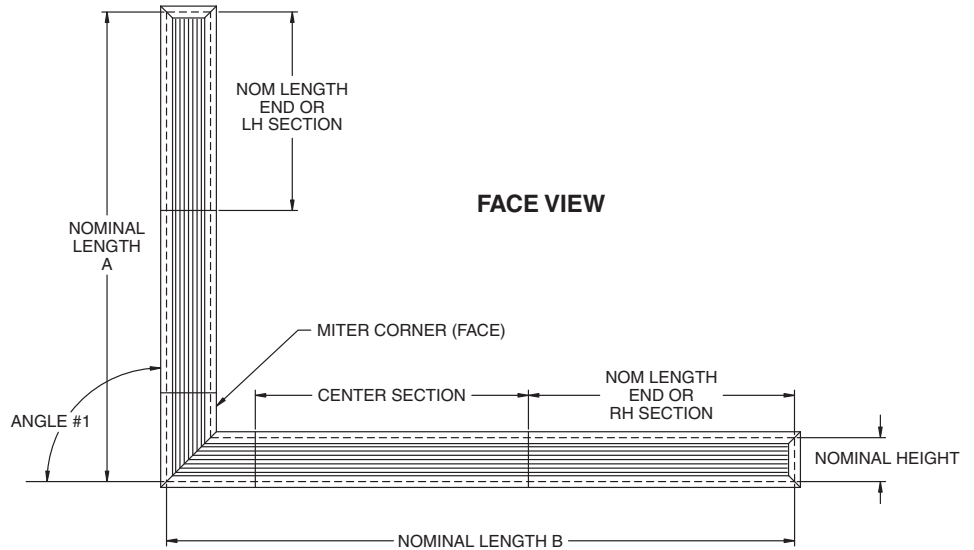

#### DISCHARGE DIRECTIONS (for other than 0° deflection)

**TABLE A. FULL SECTIONS**

| Border Type | To convert Overall to Nominal Dimensions, SUBTRACT: |
|-------------|---|
| 6           | 1-13/16"  |
| 7           | 9/16"   |
| 9           | 1-5/16"   |
| FG          | 17/32"  |
| FH          | 25/32"  |
| 8           | 1-9/16"   |

**Note:** If ordering an end section, and you need to convert the length from overall to nominal order size, use Table A dimensions, and subtract HALF of the dimension shown.

| QUANTITY | TAG# | NOM. A | NOM. B | ANGLE #1 |
|----------|------|--------|--------|----------|
|          |      |        |        |          |
|          |      |        |        |          |
|          |      |        |        |          |
|          |      |        |        |          |
|          |      |        |        |          |

All dimensions are in inches.
