TOP INLET
PRODUCT FEATURES

- MULTI-VENT / Filter interface includes knife edge into filter gel seals for zero leakage performance.
- Pressure port to measure HEPA filter pressure drop.
- Perforated face is 13% open and removable via 1/4 turn fasteners for cleaning.
- Hinged face swings down 90° for easy cleaning. Safety cables prevent face from accidentally swinging down.
- Balancing damper adjustable through hole with removable plug.
- Closed cell gasketed housing prevents leakage around perforated face.
